

VIKRAM SINGH DEORA

Frontend-Focused Full Stack Developer | React.js & Next.js

+91 9001069033 | deora.vikramsingh75@gmail.com | LinkedIn: linkedin.com/in/vikramsingh | GitHub: github.com/vikramedit

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on expertise in React.js, Next.js, and MongoDB, specializing in building scalable, high-performance web applications. Proven track record of delivering production-ready platforms across EdTech, Sports, and Hospitality domains. Currently contributing to AI-driven product development at WoodenStreet, India's leading furniture brand. Passionate about clean architecture, responsive UI/UX, and leveraging modern web technologies to solve real-world problems.

TECHNICAL SKILLS

Frontend	HTML5, Tailwind, JavaScript (ES6+), React.js, Next.js, TypeScript (basic)
Styling & UI	Tailwind CSS, Bootstrap, Material UI, ShadCN UI, Framer Motion
Backend	Express.js (basic), REST APIs, Server-Side Rendering (SSR), Static Site Generation (SSG)
Database	MongoDB, Mongoose, Supabase (PostgreSQL)
Auth & Security	NextAuth.js, JWT, bcrypt, Session Management
Dev Tools	Git, GitHub, Bitbucket, VS Code, Postman, Vercel
Concepts	Component-Based Architecture, Responsive Design, SEO Optimization, Performance Tuning, Agile/Scrum
Currently Learning	TypeScript (advanced)

PROFESSIONAL EXPERIENCE

Frontend Developer

2025 – Present

WoodenStreet — India's Leading Online Furniture Brand

- Leading frontend development of an internal AI Tool, integrating LLM-based features into production workflows
- Building advanced, pixel-perfect UIs using Next.js, Tailwind CSS, and ShadCN UI component library
- Architecting reusable, scalable component systems that reduce development time across multiple teams
- Optimizing web performance through code splitting, lazy loading, and SSR/SSG strategies
- Collaborating with backend engineers, designers, and product managers in an Agile environment
- Conducting code reviews and enforcing best practices for clean, maintainable code

React.js Developer Intern

45 Days | 2025

Marvick Solutions Private Limited

- Developed responsive React.js components and integrated APIs for live client projects
- Gained hands-on experience with state management, hooks, and component lifecycle
- Worked within a professional team environment, participating in daily standups and sprint planning

FEATURED PROJECTS

Vocaply – English Learning Platform

2026

Full Stack | Next.js, MongoDB, Tailwind CSS, REST APIs | vocaply.in

- Architected and deployed a full-stack EdTech platform serving active users for English language learning
- Built dynamic content management with Supabase, enabling real-time vocabulary and quiz data delivery
- Implemented user authentication, progress tracking, and personalized learning flows
- Designed responsive, accessible UI achieving high user engagement and low bounce rates
- Deployed on Vercel with optimized SSR for fast page loads and improved SEO rankings

Balls & Boundaries – Cricket Web App

2026

Full Stack | Next.js, MongoDB, Tailwind CSS | ballsandboundaries.in

- Built a feature-rich cricket web application with dynamic News Articles, player statistics, and match data
- Integrated MongoDB for efficient storage and retrieval of real-time cricket data (Created Admin Panel)
- Implemented smooth client-side navigation and interactive UI components for enhanced user experience
- Optimized API response times through efficient MongoDB aggregation pipelines

The Pushpa Heritage – Villa Booking System

2026

Full Stack | Next.js, MongoDB, Tailwind CSS | thepushpaheritage.in

- Developed a complete villa booking platform with real-time availability management and booking workflows (Created Admin Panel)
- Implemented secure booking logic, date validation, and dynamic pricing display
- Designed a modern, conversion-optimized UI with photo galleries and mobile-first responsive layout
- Managed full-stack integration: frontend, backend API routes (Next.js), and MongoDB data layer

Villa Management System

2026

Full Stack | Next.js, MongoDB, Node.js | **In Development**

- Building a comprehensive property management dashboard for villa operators with booking, billing, and guest management
- Implementing admin panel with real-time analytics, occupancy tracking, and revenue reporting
- Designing multi-role authentication system for admin, staff, and guests

EDUCATION

Bachelor of Computer Applications (BCA)

Sep 2022 – Apr 2025

CGPA: 7.9 / 10.0

KEY STRENGTHS

- Delivered 3+ production-grade full-stack web applications with live domains
- Self-driven learner: independently mastered Next.js, MongoDB, and UI libraries without formal training
- Strong problem-solving mindset — focused on clean code, performance, and user experience
- Effective communicator and collaborator in cross-functional Agile teams
- Committed to continuous improvement: actively learning TypeScript, and cloud deployment
